
In spite of NYS...

Who's looking out for your PD needs this summer?
WE are and YOU should, too!

2011 Budget Buster Summit

Being a school administrator in New York State is not getting any easier. Between budget cuts and new mandates, many school leaders feel like they are continuously getting dumped on, there is no time to catch their breath and their gas tanks are running on empty.

No frills, just GREAT professional development for educational leaders

The one-day summit for school administrators will focus on personal leadership development (refilling the tank) and a team approach to implementing the new APPR mandates (creating the culture). Expert guest speakers will provide updates and insights, and you will work with colleagues to develop plans based on where you are and need to be.

Resources - Tools - Best Practice Sharing

Our educational team will deliver a high-value experience at a low-cost to address our local leadership needs and school budget concerns. Visit our education website to learn more about us and agenda details. <http://www.insights2improvement.com/Solutions-Services/EducationSchools.html>

Join us on Tuesday, July 12, 2011 from 8am-4pm, \$97 per person
Roberts Wesleyan College, Rochester, NY
